INDEX TO VOLUME 22

A

Abbott, Osler A. Discussion of excretion of carbon dioxide, 147

Abscess of lung, lobectomy for fungous—effect of penicillin (Graves and Millman), 202

Achalasia of esophagus, observations as to etiology and treatment (Kay), 254

Ackman, F. Douglas (with Madore, Patrick) Decortication preceding thoracoplasty for elimination of long-standing tuberculous empyema, 358

Adams, Herbert D. Discussion of pneumonectomy for severe irradiation damage of lung, 565

Adams, W. E. (with Lees, William M., and Fritz, James M.) Subscapular paraffin pack as a supplement to thoracoplasty in treatment of pulmonary tuberculosis, 375, 385

Aegerter, Ernest (with Rosemond, George P., and Boucot, Katherine R.) Solitary pulmonary adenoma (focal pulmonary adenomatosis) A three-year follow-up after resection, 99

Alexander, John (with Lees, William M., Yang, Stephen C. H., Papoulakos, Michael, and Larralde, Angel) Results in 278 patients who had modern type thoracoplasty for tuberculosis, 329

Allen, Duff S. Cardiostathorrhaphy—splinting flaccid myocardium of coronary occlusion by surgical procedures, 609

Alley, Ralph D. (with Shedd, Donald P., and Lindskog, Gustaf E.) Observations on hemodynamics of bronchial pulmonary vascular communications, 537

Discussion of radioactive isotopes, 515

American Association for Thoracic Surgery
List of members, 647
List of officers, council, membership committee, 646
Notice of 32nd Annual Meeting, 322, 646

Anderson, Howard A. (with Olsen, Arthur M., Harrington, Stuart W., and Moersch, Herman J.) Treatment of cardiospasm—analysis of twelve-year experience, 164

Aortic arch, double (Nuboer), 208

Auerbach, Oscar (with Stemmermann, Grant N., and Daniels, Charles F.) Pathogenesis of bronchopleural fistulas following excision therapy for pulmonary tuberculosis, 392

Auricular appendage as an autogenous myocardial graft, use of (Shafiroff, Baron, and Kau), 631

B

Bailey, Charles P. Discussion of acute cardiac arrest, 605

Ballinger, Charles S. (with Effler, Donald B.) Complications and surgical treatment of hiatus hernia and short esophagus, 235

Baron, H. C. (with Shafiroff, B. G. P., and Kau, Quan Y.) Use of auricular appendage as an autogenous myocardial graft, 631

Beattie, E. J., Jr. (with Paul, John S., and Blades, Brian) Lung function studies in poudrage treatment of recurrent spontaneous pneumothorax, 52

Beck, William C. (with Reganis, John C.) Primary lymphoma of lung, 323

Beecher, Henry K. Discussion of excretion of carbon dioxide, 148

(with Quinn, Thomas J. Jr., Bunker, John P., and D'Alessandro, Genesio L.) Effect of position and artificial ventilation on excretion of carbon dioxide during thoracic surgery, 135

Bergmann, Martin (with Graham, Evarts A.) Pneumonectomy for severe irradiation damage of lung, 549, 567

Bettag, Otto L. Pulmonary resection for histoplasmosis, 434

Blades, Brian (with Paul, John S., and Beattie, E. J., Jr.) Lung function studies in poudrage treatment of recurrent spontaneous pneumothorax, 52

Blake, Hu A. (with Forsee, James H., and Kylar, Stephen L.) Pulmonary function in traumatic hemothorax treated by decortication, 35

Bosher, Lewis, Jr. Discussion of reconstructive surgery of trachea and bronchi, 582

Boucot, Katharine R. (with Rosemond, George P., and Aegerter, Ernest) Solitary pulmonary adenoma (focal pulmonary adenomatosis): a three-year follow-up after resection, 99

Boyden, Edward A. (with Ferry, Ronald M., Jr.) Variations in bronchovascular patterns of right lower lobe of fifty lungs, 188

Brantigan, Otto C. Discussion of pneumonectomy for severe irradiation damage of lung, 566

Brewer, Lyman A. III, Discussion of mucoid impaction of bronchi, 161

Bronchi, mucoid impaction of (Shaw), 149

reconstructive surgery of trachea and—late results with dermal grafts (Gebauer), 568

Bronchial pulmonary vascular communications, observations on hemodynamics of (Shedd, Alley, and Lindskog), 537

rupture with plastic repair, traumatic (Paulson), 636

Bronchiectasis after incomplete resection, the prognosis of residual (Rosemond, Burnett, and Humphrey-Long), 439

comparative study of tuberculous and non-tuberculous pyogenic suppurative disease (Gordon and Pratt), 411

Bronchogenic adenocarcinoma (Patton, McDonald, and Moersch), 83

carcinoma, identification of regional lymph nodes in treatment of (Weinberg), 517

significance of cell types in (McDonald, McBurney, Carlisle, and Patton), 62

large-cell carcinoma (Patton, McDonald, and Moersch), 88

small-cell carcinoma (McBurney, McDonald, and Clagett), 63

squamous-cell carcinoma (Carlisle, McDonald, and Harrington), 74

Bronchography as an aid in planning surgical treatment of pulmonary tuberculosis (Gordon, Zinn, and Pratt), 109

Bronchopleural fistulas following excisional therapy for pulmonary tuberculosis, pathogenesis of (Stemmermann, Daniels, and Auerbach), 392

Bronchovascular patterns of right lower lobe of fifty lungs, variations in (Boyden and Ferry), 188

Brown, E. M. (with Watson, T. A.) X-ray therapy in carcinoma of esophagus, 216

Bunker, John P. (with Beecher, Henry K., Quinn, Thomas J., Jr., and D'Alessandro, Genesio L.) Effect of position and artificial ventilation on excretion of carbon dioxide during thoracic surgery, 135

Burnett, W. Emory. Discussion of pleuropulmonary resection, 487

(with Rosemond, George P., and Humphrey-Long, Joan) The prognosis of residual bronchiectasis after incomplete resection, 439, 448

Butterworth, Robert F. A device for producing realistic pulsation of dead heart, 316

A new operating cardioscope, 319

C

Cahan, William. Discussion of reconstructive surgery of trachea and bronchi, 583

(with Watson, William L., and Pool, John L.) Radical pneumonectomy, 449, 473

Cancer of chest, management of patient with inoperable (Meade and Rasmussen), 490

Carbon dioxide during thoracic surgery, effect of position and artificial ventilation on excretion of (Beecher, Quinn, Bunker, and D'Alessandro), 135

Carcinoma of esophagus, x-ray therapy in (Watson and Brown), 216

Carcinomatosis of pleura, radioactive isotopes in palliative management of (Kent and Moses), 503

Cardiac arrest, anaylsis of twenty-seven cases of acute (Ehrenhaft, Eastwood, and Morris), 592

Cardioscope, a new operating (Butterworth), 319

Cardiospasm, treatment of—analysis of twelve-year experience (Olsen, Harrington, Moersch, and Andersen), 164

Cardiostathorrhaphy—splinting the flaccid myocardium of coronary occlusion by surgical procedures (Allen), 609

Carlens, Eric (with Hanson, Hans Erik, and Nordenstrom, Bjorn) Temporary unilateral occlusion of pulmonary artery, 527

Carlisle, John C. (with McDonald, John R., and Harrington, Stuart W.) Bronchogenic squamous-cell carcinoma, 74

(with McDonald, John R., McBurney, Robert P., and Patton, Matthew M.) Significance of cell types in bronchogenic carcinoma, 62

Carter, M. G. (with Nesbit, R. R., and Piper, C. A.) Endoscopic sponge biopsy, 386

Cavernostomy for thoracoplasty failure, influence of streptomycin resistance upon success of (Murphy and Swindell), 104

Chamberlain, John M. Discussion of radical pneumonectomy, 471

Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 293

Clagett, O. Theron (with McBurney, Robert P., and McDonald, John R.) Bronchogenic small-cell carcinoma, 63

Cleland, W. P. Discussion of managing inoperable chest cancer patient, 501

Discussion of subscapular paraffin pack, 383

Cole, Dean B. Discussion of managing inoperable chest cancer patient, 499

Discussion of mucoid impaction of bronchi, 163

Conant, Norman F. (with Connar, Richard G., Ferguson, Thomas B., and Sealy, Will C.) Nocardiosis—report of single case with recovery, 424

Conklin, William S. (with Tuhy, John E., and Grismer, Jerome T.) Thoracoplasty combined with resection for pulmonary tuberculosis, 271, 294

Connar, Richard G. (with Ferguson, Thomas B., Sealy, Will C., and Conant, Norman F.) Nocardiosis—report of single case with recovery, 424

Coronary occlusion by surgical procedures, splinting the flaccid myocardium of—cardiostathorrhaphy (Allen), 609

Cotton, Bert H. (with Penido, Joao R. F.) Pleuropulmonary resection with hemidiaphragmectomy, 474, 489

Crandall, W. B. Discussion of observations as to etiology and treatment of achalasia of esophagus, 270

D

Dailey, James E. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 290

D'Alessandro, Genesio L. (with Beecher, Henry K., Quinn, Thomas J., Jr., and Bunker, John P.) Effect of position and artificial ventilation on excretion of carbon dioxide during thoracic surgery, 135

Daniels, Charles F. (with Stemmermann, Grant N., and Auerbach, Oscar) The pathogenesis of bronchopleural fistulas following excision therapy for pulmonary tuberculosis, 392

Davidson, Louis R. Discussion of pleuropulmonary resection, 487

DeBakey, M. E. Discussion of observations as to etiology and treatment of achalasia of esophagus, 269

Decortication and resection in unsuccessful pneumothorax, simultaneous (Riley and Kaunitz), 341

preceding thoracoplasty for elimination of long-standing tuberculous empyema (Ackman and Madore), 358

pulmonary function in traumatic hemothorax treated by (Forsee, Kylar, and Blake), 35

Dennis, Clarence. Discussion of excretion of carbon dioxide, 148

Dermal grafts, reconstructive surgery of trachea and bronchi, late results with (Gebauer), 568

E

Eastwood, D. W. (with Ehrenhaft, J. L., and Morris, L. E.) Analysis of twenty-seven cases of acute cardiac arrest, 592

Effler, Donald B. (with Ballinger, Charles S.) Complications and surgical treatment of hiatus hernia and short esophagus, 235, 247

Ehrenhaft, J. L. (with Eastwood, D. W., and Morris, L. E.) Analysis of twenty-seven cases of acute cardiac arrest, 592, 608

Eloesser, Leo. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 293

Endoscopic sponge biopsy (Carter, Nesbit, and Piper), 386

Esophagitis, formation of a temporary external esophageal fistula over a T-tube for stenosing (Thorek), 248

Esophagus, complications and surgical treatment of hiatus hernia and short (Effler and Ballinger), 235

observations as to etiology and treatment of achalasia of (Kay), 254

X-ray therapy in carcinoma of (Watson and Brown), 216

Evans, Byron H. Myxochondroma of trachea, 585

F

Ferguson, Thomas B. (with Connar, Richard G., Sealy, Will C., and Conant, Norman F.) Nocardiosis—report of a single case with recovery, 424

Ferry, Ronald M., Jr. (with Boyden, Edward A.) Variations in bronchovascular patterns of right lower lobe of fifty lungs, 188

Finley, Robert K., Jr. (with Templeton, John Y., III, Holland, Robert H., and Gibbon, John H., Jr.) Changes in urine and serum electrolytes and plasma volumes after major intrathoracic operations, 219

Fistula over a T-tube for stenosing, formation of a temporary external esophageal (Thorek), 248

Forsee, James H. Discussion of results in 278 patients with modern thoracoplasty, 338

(with Kylar, Stephen L., and Blake, Hu A.) Pulmonary function in traumatic hemothorax treated by decortication, 35

Fritz, James M. (with Adams, W. E., and Lees, William M.) Subscapular paraffin pack as a supplement to thoracoplasty in treatment of pulmonary tuberculosis, 375

G

Gaensler, Edward A. (with Strieder, John W.) Progressive changes in pulmonary function after pneumonectomy: the influence of thoracoplasty, pneumothorax, oleothorax, and plastic sponge plombage on side of pneumonectomy, 1

Garlock, John H. Discussion of observations as to etiology and treatment of achalasia of esophagus, 268

Gebauer, Paul W. Reconstructive surgery of trachea and bronchi: late results with dermal grafts, 568, 584

Gibbon, John H., Jr. Discussion of excretion of carbon dioxide, 146

(with Finley, Robert K., Jr., Templeton, John Y., III, and Holland, Robert H.) Changes in urine and serum electrolytes and plasma volumes after major intrathoracic operations, 219, 233

Goldman, Alfred. Discussion of myxochondroma of trachea, 590

Discussion of radioactive isotopes, 515

Discussion of subscapular paraffin pack, 382

Gordon, Joseph (with Pratt, Philip C.) Bronchiectasis: A comparative study of tuberculous and nontuberculous pyogenic suppurative disease, 411

(with Zinn, W. Berkeley, and Pratt, Philip C.) Bronchography as an aid in planning surgical treatment of pulmonary tuberculosis, 109

Graham, Evarts A. Discussion of excretion of carbon dioxide, 144

(with Bergmann, Martin) Pneumonectomy for severe irradiation damage of lung, 549, 565

Graves, Clifford L. (with Millman, Milton) Lobectomy for fungous abscess of lung: effect of penicillin, 202

Grismer, Jerome T. (with Conklin, William S., and Tuhy, John E.) Thoracoplasty combined with resection for pulmonary tuberculosis, 271

H

Haight, Cameron. Discussion of results in 278 patients with modern thoracoplasty, 340

Hanson, Hans Erik (with Carlens, Eric, and Nordenstrom, Bjorn) Temporary unilateral occlusion of pulmonary artery, 527

Harken, Dwight E. Discussion of acute cardiac arrest, 604

Discussion of pleuropulmonary resection, 488

Harrington, Stuart W. (with Carlisle, John C., and McDonald, John R.) Bronchogenic squamous-cell carcinoma, 74

(with Olsen, Arthur M., Moersch, Herman J., and Anderson, Howard A.) Treatment of cardiospasm: analysis of twelve-year experience, 164

Head, Jerome. Discussion of mucoid impaction of bronchi, 162

Heart, device for producing realistic pulsation of a dead (Butterworth), 316

Hemidiaphragmectomy, pleuropulmonary resection with (Cotton and Penido), 474

Hemodynamics of bronchial pulmonary vascular communications, observations on (Shedd, Alley, and Lindskog), 537

studies on group of patients who developed cor pulmonale following thoracoplasty (Zimmerman), 94

Hemothorax treated by decortication, pulmonary function in traumatic (Forsee, Kylar, and Blake), 35

Hernia and short esophagus, complications and surgical treatment of hiatus (Effler and Ballinger), 235

Higginson, J. F. Discussion of radical pneumonectomy, 471

Himmelstein, Aaron. Discussion of symposium on pulmonary function, 60

(with Powers, Samuel R., Jr.) Late changes in ventilatory function following thoracoplasty, 45

Histoplasmosis, pulmonary resection for (Bettag), 434

Holinger, Paul. Discussion of managing inoperable chest cancer patient, 501

Holland, Robert H. (with Finley, Robert K., Jr., Templeton, John Y., III, and Gibbon, John H., Jr.) Changes in urine and serum electrolytes and plasma volumes after major intrathoracic operations, 219

Hudson, T. R. Discussion of subscapular paraffin pack, 384

Hughes, Felix A., Jr. Discussion of symposium on pulmonary function, 58

Humphrey-Long, Joan (with Rosemond, George P., and Burnett, W. Emory) The prognosis of residual bronchiectasis after incomplete resection, 439

I

Intrathoracic operations, changes in urine and serum electrolytes and plasma volumes after major (Finley, Templeton, Holland, and Gibbon), 219

Irradiation damage of lung, pneumonectomy for severe (Bergmann and Graham), 549

Isotopes in palliative management of carcinomatosis of pleura, radioactive (Kent and Moses), 503

J

Janes, Robert M. Discussion of pathogenesis of bronchopleural fistulas, 410

Johnson, E. K. Discussion of observations as to etiology and treatment of achalasia of esophagus, 269

Johnson, Julian. Discussion of acute cardiac arrest, 606

K

Kau, Quan Y. (with Shafiroff, G. B. P., and Baron, H. C.) Use of auricular appendage as an autogenous myocardial graft, 631

Kaunitz, Victor H. (with Riley, Arnold O.) Simultaneous decortication and resection in unsuccessful pneumothorax, 341, 374

Kay, Earle B. Discussion of symposium on pulmonary function, 59
Discussion of acute cardiac arrest, 606
Observations as to etiology and treatment of achalasia of esophagus, 254

Kelley, W. D. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 292

Kelley, Winfield O. (with Pecora, David V.) Revision thoracoplasty—review of twenty-seven cases, 295

Kent, Edward M. (with Moses, Campbell) Radioactive isotopes in palliative management of carcinomatosis of pleura, 503

Klopstock, Robert. Discussion of subscapular paraffin pack, 384

Knutson, Kenneth P. (with Storey, Clifford F.) Liposarcoma of mediastinum, 300

Kylar, Stephen L. (with Forsee, James H., and Blake, Hu A.) Pulmonary function in traumatic hemothorax treated by decortication, 35

L

Lambert, Adrian, Jr. Discussion of pneumonectomy for severe irradiation damage of lung, 566
Discussion of radical pneumonectomy, 472

Lampson, R. Starr. Discussion of acute cardiac arrest, 603

Larralde, Angel (with Lees, William M., Yang, Stephen C. H., Papoulakos, Michael, and Alexander, John) Results in 278 patients who had modern type of thoracoplasty for tuberculosis, 329

Lees, William M. (with Adams, W. E., and Fritz, James M.) Subscapular paraffin pack as supplement to thoracoplasty in treatment of pulmonary tuberculosis, 375
(with Yang, Stephen C. H., Papoulakos, Michael, Alexander, John, and Larralde, Angel) Results in 278 patients who had modern type of thoracoplasty for tuberculosis, 329, 340

Lester, Charles W. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 290

Lindskog, Gustaf E. (with Shedd, Donald P., and Alley, Ralph D.) Observations on hemodynamics of bronchial pulmonary vascular communications, 537

Liposarcoma of mediastinum (Storey and Knutson), 300

Lobectomy for fungous abscess of lung: effect of penicillin (Graves and Millman), 202

Lung function studies in poudrage treatment of recurrent spontaneous pneumothorax (Paul, Beattie, and Blades), 52

primary lymphoma of (Beck and Reganis), 323

Lungs, variations in bronchovascular patterns of right lower lobe of fifty (Boyden and Ferry), 188

Lymph nodes in treatment of bronchiogenic carcinoma, identification of regional (Weinberg), 517

Lymphoma of lung, primary (Beck and Reganis), 325

M

Madore, Patrick (with Ackman, F. Douglas) Decortication preceding thoracoplasty for elimination of long-standing tuberculous empyema, 358

Maier, Herbert C. Discussion of excretion of carbon dioxide, 144

Discussion of pathogenesis of bronchopleural fistulas, 408

Management of patient with inoperable cancer of the chest (Meade and Rasmussen), 490

McBurney, Robert P. (with McDonald, John R., Carlisle, John C., and Patton, Matthew M.) Significance of cell types in bronchogenic carcinoma, 62

(with McDonald, John R., and Clagett, O. Theron) Bronchogenic small-cell carcinoma, 63

McDonald, John R. (with Carlisle, John C., and Harrington, Stuart W.) Bronchogenic squamous-cell carcinoma, 74

(with McBurney, Robert P., Carlisle, John C., and Patton, Matthew M.) Significance of cell types in bronchogenic carcinoma, 62

(with McBurney, Robert P., and Clagett, O. Theron) Bronchogenic small-cell carcinoma, 63

(with Patton, Matthew M., and Moersch, Herman J.) Bronchogenic adenocarcinoma, 83

(with Patton, Matthew M., and Moersch, Herman J.) Bronchogenic large-cell carcinoma, 88

Meade, Richard H., Jr. (with Rasmussen, Richard A.) Management of patient with inoperable cancer of chest, 490, 499

Mediastinum, liposarcoma of (Storey and Knutson), 300

Millman, Milton (with Graves, Clifford L.) Lobectomy for fungous abscess of lung; effect of penicillin, 202

Miscall, Laurence. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 292

Moersch, Herman J. (with Olsen, Arthur M., Harrington, Stuart W., Jr., and Anderson, Howard A.) The treatment of cardiospasm; analysis of a twelve-year experience, 164

(with Patton, Matthew M., and McDonald, John R.) Bronchogenic adenocarcinoma, 83

(with Patton, Matthew M., and McDonald, John R.) Bronchogenic large-cell carcinoma, 88

Morris, L. E. (with Ehrenhaft, J. L., and Eastwood, D. W.) Analysis of twenty-seven cases of acute cardiac arrest, 592

Moses, Campbell (with Kent, Edward M.) Radioactive isotopes in palliative management of carcinomatosis of pleura, 503, 516

Mousel, Lloyd H. Discussion of excretion of carbon dioxide, 147

Mucoid impaction of bronchi (Shaw), 149

Murphy, James D. Discussion of pathogenesis of bronchopleural fistulas, 407

(with Swindell, H. V.) The influence of streptomycin resistance upon success of cavernostomy for thoracoplasty failure, 104

Myocardial graft, use of auricular appendage as an autogenous (Shafiroff, Baron, and Kau), 631

Myocardium of coronary occlusion by surgical procedures, splinting the flaccid—Cardiostathorrhaphy (Allen), 609

Myxochondroma of trachea (Evans), 585

N

Nesbit, R. R. (with Carter, M. G., and Piper, C. A.) Endoscopic sponge biopsy, 386

Nocardiosis—report of single case with recovery (Connar, Ferguson, Sealy, and Conant), 424

Nordenstrom, Bjorn (with Carlens, Eric, and Hanson, Hans Erik) Temporary unilateral occlusion of pulmonary artery, 527

Nuboer, J. F. Double aortic arch, 208

O

O'Brien, Edward J. Discussion of subscapular paraffin pack, 382

Occlusion of pulmonary artery, temporary unilateral (Carlens, Hanson, and Nordenstrom), 527

Ochsner, Alton. Discussion of complications and surgical treatment of hiatus hernia and short esophagus, 246

Olsen, Arthur M. Discussion of observations as to etiology and treatment of achalasia of esophagus, 270

(with Harrington, Stuart W., Moersch, Herman J., and Anderson, Howard A.) The treatment of cardiospasm: analysis of twelve-year experience, 164

Overholt, Richard H. Discussion of acute cardiac arrest, 608

Overholt, Richard H.—Cont'd
Discussion of excretion of carbon dioxide, 145
Discussion of mucoid impaction of bronchi, 163
Discussion of pathogenesis of bronchopleural fistulas, 410
Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 291

P

Pannier, Robert. Discussion of results in 278 patients with modern thoracoplasty, 339

Papoulakos, Michael (with Lees, William M., Yang, Stephen C. H., Alexander, John, and Larralde, Angel) Results in 278 patients who had modern type of thoracoplasty for tuberculosis, 329

Paraffin pack as a supplement to thoracoplasty in treatment of pulmonary tuberculosis, subscapular (Adams, Lees, and Fritz), 375

Patton, Matthew M. (with McDonald, John R., McBurney, Robert P., and Carlisle, John C.) The significance of cell types in bronchogenic carcinoma, 62
(with McDonald, John R., and Moersch, Herman J.) Bronchogenic adenocarcinoma, 83
(with McDonald, John R., and Moersch, Herman J.) Bronchogenic large-cell carcinoma, 88

Paul, John S. Discussion of symposium on pulmonary function, 61
(with Beattie, E. J., and Blades, Brian) Lung function studies in poudrage treatment of recurrent spontaneous pneumothorax, 52

Paulson, Donald L. Discussion of reconstructive surgery of trachea and bronchi, 582
Traumatic bronchial rupture with plastic repair, 636

Pecora, David V. (with Kelley, Winfield O.) Revision of thoracoplasty—a review of twenty-seven cases, 295

Penicillin, effect of—lobectomy for fungous abscess of lung (Graves and Millman), 202

Penido, Joao R. F. (with Cotton, Bert H.) Pleuropulmonary resection with hemidiaphragmectomy, 474

Piper, C. A. (with Carter, M. G., and Nesbit, R. R.) Endoscopic sponge biopsy, 386

Plasma volumes after major intrathoracic operations, changes in urine and serum electrolytes and (Finley, Templeton, Holland, and Gibbon), 219

Plastic repair, traumatic bronchial rupture with (Paulson), 636

Pleura, radioactive isotopes in palliative management of carcinomatosis of (Kent and Moses), 503

Pleuropulmonary resection with hemidiaphragmectomy (Cotton and Penido), 474

Pneumonectomy for severe irradiation damage of lung (Bergmann and Graham), 549
progressive changes in pulmonary function after; the influence of thoracoplasty, pneumothorax, oleothorax, and plastic sponge plombage on side of pneumonectomy (Gaensler and Strieder), 1
radical (Cahan, Watson, and Pool), 449

Pneumothorax, lung function studies in poudrage treatment of recurrent spontaneous (Paul, Beattie, and Blades), 52
simultaneous decortication and resection in unsuccessful (Riley and Kaunitz), 341

Pool, John L. (with Cahan, William G., and Watson, William L.) Radical pneumonectomy, 449

Poppe, J. Karl. Discussion of radioactive isotopes, 515

Potts, Willis J. Discussion of acute cardiac arrest, 607

Poudrage treatment of recurrent spontaneous pneumothorax, lung function studies in (Paul, Beattie, and Blades), 52

Powers, Samuel R., Jr. (with Himmelstein, Aaron) Late changes in ventilatory function following thoracoplasty, 45

Pratt, Philip C. (with Gordon, Joseph) Bronchiectasis: A comparative study of tuberculous and nontuberculous pyogenic suppurative disease, 411
(with Gordon, Joseph, and Zinn, W. Berkeley) Bronchography as an aid in planning surgical treatment of pulmonary tuberculosis, 109

Pulmonary adenoma, solitary (focal pulmonary adenomatosis): A three-year follow-up after resection (Rosemond, Boucot, and Aegerter), 99

Pulmonary—Cont'd
artery, temporary unilateral occlusion of (Carlens, Hanson, and Nordenstrom), 527
function after pneumonectomy, progressive changes in: the influence of thoracoplasty, pneumothorax, oleothorax, and plastic sponge plombage on side of pneumonectomy (Gaensler and Strieder), 1
in traumatic hemothorax treated by decortication (Forsee, Kylar, and Blake), 35

Q

Quinn, Thomas J., Jr. (with Beecher, Henry K., Bunker, John P., and D'Alessandro, Genesio L.) Effect of position and artificial ventilation on excretion of carbon dioxide during thoracic surgery, 135

R

Raine, Forrester. Discussion of complications and surgical treatment of hiatus hernia and short esophagus, 245

Rasmussen, Richard A. (with Meade, Richard H., Jr.) The management of patient with inoperable cancer of chest, 490, 502

Ravitch, Mark M. Discussion of reconstructive surgery of trachea and bronchi, 583

Read, C. Thomas. Discussion of pathogenesis of bronchopleural fistulas, 408

Reganis, John C. (with Beck, William C.) Primary lymphoma of lung, 323

Resection in unsuccessful pneumothorax, simultaneous decortication and (Riley and Kaunitz), 341
for histoplasmosis, pulmonary (Bettag), 434
prognosis of residual bronchiectasis after incomplete (Rosemond, Burnett, and Humphrey-Long), 439

Riley, Arnold O. (with Kaunitz, Victor H.) Simultaneous decortication and resection in unsuccessful pneumothorax, 341

Rosemond, George P. (with Boucot, Katharine R., and Aegerter, Ernest) Solitary pulmonary adenoma (focal pulmonary adenomatosis): A three-year follow-up after resection, 99
(with Burnett, W. Emory, and Humphrey-Long, Joan) Prognosis of residual bronchiectasis after incomplete resection, 439

S

Samson, Paul C. Discussion of thoracoplasty combined with resection for pulmonary tuberculosis, 289

Sanger, Paul W. Discussion of excretion of carbon dioxide, 145

Sarot, Irving A. Discussion of pathogenesis of bronchopleural fistulas, 409
Discussion of pleuropulmonary resection, 488

Scannell, J. Gordon. Discussion of prognosis of residual bronchiectasis, 448

Sealy, Will C. (with Connar, Richard G., Ferguson, Thomas B., and Conant, Norman F.) Nocardiosis—report of a single case with recovery, 424

Seley, Gabriel P. Discussion of managing inoperable chest cancer patient, 499

Serum electrolytes and plasma volumes after major intrathoracic operations, changes in urine (Finley, Templeton, Holland, and Gibbon), 219

Shafiroff, B. G. P. (with Baron, H. C., and Kau, Quan Y.) Use of auricular appendage as an autogenous myocardial graft, 631

mucoid impaction of bronchi, 149, 163

Shedd, Donald P. (with Alley, Ralph D., and Lindskog, Gustaf E.) Observations on hemodynamics of bronchial pulmonary vascular communications, 537

Soutter, Lamar. Discussion of complications and surgical treatment of hiatus hernia and short esophagus, 246

Stemmermann, Grant N. (with Daniels, Charles F., and Auerbach, Oscar) The pathogenesis of bronchopleural fistulas following excision therapy for pulmonary tuberculosis, 392, 410

Storey, Clifford F. (with Knutson, Kenneth P.) Liposarcoma of mediastinum, 300

Streptomycin resistance upon the success of cavernostomy for thoracoplasty failure (Murphy and Swindell), 104

Strieder, John W. Discussion of symposium on pulmonary function, 60
(with Gaensler, Edward A.) Progressive changes in pulmonary function after pneumonectomy: the influence of thoracoplasty, pneumothorax, oleothorax and plastic sponge plombage on side of pneumonectomy, 1

Sweet, Richard H. Discussion of formation of temporary external esophageal fistula over T-tube for stenosing esophagitis, 253

Discussion of observations as to etiology and treatment of achalasia of esophagus, 267

Swindell, H. V. (with Murphy, James D.) Influence of streptomycin resistance upon success of cavernostomy for thoracoplasty failure, 104

T

Templeton, John Y., III (with Finley, Robert K., Jr., Holland, Robert H., and Gibbon, John H., Jr.) Changes in urine and serum electrolytes and plasma volumes after major intrathoracic operations, 219

Thoracoplasty combined with resection for pulmonary tuberculosis (Conklin, Tuhy, and Grismer), 271

failure, influence of streptomycin resistance upon success of cavernostomy for (Murphy and Swindell), 104

for elimination of long-standing tuberculous empyema (Ackman and Madore), 358

for tuberculosis, results in 278 patients who had modern type of (Lees, Yang, Papoulakos, Alexander, and Larralde), 329

in treatment of pulmonary tuberculosis, subscapular paraffin pack as supplement to (Adams, Lees, and Fritz), 375

late changes in ventilatory function following (Powers and Himmelstein), 45

revision (Kelley and Pecora), 295

studies on group of patients who developed cor pulmonale following: Hemodynamics (Zimmerman), 94

Thorek, Philip. Formation of temporary external esophageal fistula over T-tube for stenosing esophagitis, 248

discussion, 253

Trachea and bronchi, reconstructive surgery of—late results with dermal grafts (Gebauer), 568

myxochondroma of (Evans), 585

Tuberculosis, bronchography as aid in planning surgical treatment of pulmonary (Gordon, Zinn, and Pratt), 109

results in 278 patients who had modern type of thoracoplasty (Lees, Yang, Papoulakos, Alexander, and Larralde), 329

Tuberculosis—Cont'd

subscapular paraffin pack as supplement to thoracoplasty in treatment of pulmonary (Adams, Lees, and Fritz), 375

thoracoplasty combined with resection for pulmonary (Conklin, Tuhy, and Grismer), 271

pathogenesis of bronchopleural fistulas following excisional therapy for pulmonary (Stemmermann, Daniels, and Auerbach), 392

Tuberculous and nontuberculous pyogenic suppurative disease, bronchiectasis, comparative study of (Gordon and Pratt), 411

empyema, decortication preceding thoracoplasty for elimination of long-standing (Ackman and Madore), 358

Tuhy, John E. (with Conklin, William S., and Grismer, Jerome T.) Thoracoplasty combined with resection for pulmonary tuberculosis, 271

U

Urine and serum electrolytes and plasma volumes after major intrathoracic operation, changes in (Finley, Templeton, Holland, and Gibbon), 219
